

KYLE MATTHEW M. QUITCO

FULL-STACK DEVELOPER AND APPLIED AI ENGINEER

kylequitco3212@gmail.com | +639682049428 | Punta Princesa, Cebu City, Cebu

SUMMARY

A Full-Stack Web Developer with hands-on experience in building web applications and AI-powered platforms. Proficient in modern web development technologies, database management, and cloud deployment, focused on creating reliable and user-centered applications. Knowledgeable in AI tools, LLMs, prompt engineering, AI-assisted solutions, and automation to deliver efficient and innovative software solutions. Eager to continuously learn new technologies, strengthen technical expertise, and contribute effectively in a collaborative and growth-oriented work environment.

EXPERIENCE

AI Prompt Engineering Intern
Lifewood Data Technology PH

Jan 2026 – April 2026
i2 Building, IT Park, Cebu City, Cebu

- Developed an AI agent platform using AI development tools, including system design and implementation of functional workflows.
- Developed chatbot systems using Google AI Studio, implementing conversational flows and testing responses for accuracy and usability.
- Built a full-stack company website, implementing both frontend and backend features to support system functionality and user experience.
- Developed a 2.5D game using Godot Engine, including gameplay mechanics, interaction logic, and core system design.
- Created Power BI dashboards for data analytics and reporting, transforming raw data into clear and actionable insights.
- Managed daily social media engagement activities by tracking and interacting with relevant posts to support visibility and engagement.
- Conducted data crawling, research, and data scaling tasks to collect, process, and structure large datasets for system use.
- Utilized AI-assisted tools and data-driven systems, applying prompt engineering and workflow optimization to support development tasks and improve process efficiency.

EDUCATION

Bachelor of Science in Information Technology
Cebu Institute of Technology – University

Jan 2019 – May 2026

KEY SKILLS

- Frontend Development (HTML, CSS, JavaScript, ReactJS, Tailwind CSS, Material UI)
- Backend Development (Java, Python, NodeJS, Spring Boot, Django)
- Database Management (MySQL, Firebase, XAMPP, phpMyAdmin)
- Cloud & Deployment Platforms (Railway, Render, Vercel, Azure, AWS, Netlify)
- Version Control & Development Tools (GitHub, Postman)
- UI/UX Design & Prototyping (Figma)
- System Visualization & Documentation (PlantUML, VisualParadigm, Draw.io, Canva)
- Prompt Engineering & AI-Assisted Dev. (ChatGPT, Gemini, Copilot, Cursor, Anti Gravity)
- AI Integration & Workflow Automation
- Project & Workflow Management (Notion, Trello, ClickUp)
- Microsoft Office Suite (Word, Excel, PowerPoint, Outlook, Teams)
- Problem Solving, Troubleshooting & Debugging
- Quality & Detail Oriented
- Adaptability & Flexibility

CERTIFICATIONS

TESDA Scholarship – AI Users Training Technical Education and Skills Development Authority (TESDA)	May 2026
AWS Academy Graduate – Cloud Architecting Amazon Web Services (AWS)	Nov 2025
AWS Academy Graduate – Cloud Foundation Amazon Web Services (AWS)	Sep 2025
